

## Sprayer BP15 Li-Ion

The new TASKI<sup>®</sup> Sprayer BP15 Li-Ion combines proven and simple sprayer technology with new and innovative Li-Ion battery technology. This flexible and cost efficient tool allows to spray disinfect bigger areas quickly.

### **TASKI Sprayer BP15 Li-Ion brings you:**

- Full flexibility and freedom with Li-Ion battery
- Adjustable sprayer function 60-200 microns
- Simple and ergonomic to use
- Highest quality manufactured in Switzerland
- Stainless steel tube for highest durability

### **Full flexibility and freedom with Li-Ion battery**

The TASKI BP15 sprayer includes latest Li-Ion technology to maximize the flexibility in operations. Its applicable for various areas where spraying is important. With four hours runtime it give a long operational time. The system comes ready to use including battery and charger. Furthermore the battery is part if the global CAS system wher the battery can be also used with other tools.

### **Adjustable sprayer function with different spray nozzles**

The nozzle jet can be changed to have different droplet sizes. Within the package there are two different nozzles included which allows to use the product for different applications and areas in the disinfection and or general cleaning process. The nozzles allowing 60micron and 200micron spray droplets.

### **Simple and ergonomic to use**

Turn it on, put it on your back and discover a new dimension of work. With the back pack battery sprayer, you'll get anywhere and the built-in battery will allow you to work incredibly long without recharging. And with the lightweight and comfortable design.

### **Highest quality manufactured in Switzerland**

The Sprayer produced in Switzerland is using high quality parts to ensure best performance and a long lifespan. It can be also used with different chemicals based on the stainless steel lance and the diaphragm pump.

# TASKI Sprayer BP15 Li-Ion

Technical data	TASKI SP15
Tank capacity (L)	15
Rated voltage (V)	18
Pressure adjustable (Bar)	3
Battery (type)	Lithium
Battery capacity (AH)	2.0
Run time (minutes)	240
Recharge time (minutes)	80
Weight with battery (kg)	4.5
Sound level (dbA)	<70
Spray tube type	Stainless steel
Number of spray nozzles	Two
Droplet size (micron)	60/200
Dimension LxWxH (mm)	240 x 340 x 570
Approvals	CE
